

STOP SMOKING THERAPY

This is a Naturopathic program to stop the addiction to smoking cigarettes, cigars, pipes, and other drugs. The therapy uses a combination of **LASER ACUPUNCTURE, ELECTRO-STIMULATION, and HOMEOPATHIC REMEDIES.**

During the initial treatment a Laser Acupuncture session is administered and a Homeopathic Remedy is given. During subsequent treatments, a bioelectric device is used to aid in the effectiveness of the initial treatment. A booster Laser Acupuncture treatment is recommended approximately 2 weeks to a month later.

FACIAL ACUTHERAPY

This treatment is a non-invasive method of acupuncture; absolutely no needles are used. A *laser light beam* is used to stimulate the acupuncture points, which releases the blockages in the body that cause various ailments and conditions.

We use a low power laser (stimulates tissue repair – ‘photo bio-stimulation’), which is too weak to damage cells and has no side effects. By applying Laser Acutherapy, mild Electro Stimulation, and Photo-Rejuvenation techniques, one can improve the circulation and increase the moisture content of the facial skin. As a result, sagging muscles and skin are toned; tense muscles are relaxed and a marked improvement in the appearance of the facial contour and the skin can be achieved on a short-term basis. The laser can help with the following conditions:

Toxic system	Disapproval wrinkles	Muscle problems
Eye bag wrinkles	Upper lip wrinkles	Facial toning
Facial wrinkles	Hair, nails and eyebrows	Electrical system
Upper eye wrinkles	Digestive problems	Jowl wrinkles
Chin wrinkles	Facial toning	Varicose veins
Degenerative disease	Laugh lines	Lymphatic
Skin moisture	Ringing in ears	Nervous system
Frown wrinkles	Acne	Crow's feet
Smile wrinkles	Neck wrinkles	Harmonize body
