

Covid/Mask Update

Please remember that we are a health clinic that does have immuno-compromised patients; therefore, we do require the following upon entering (and while inside) our clinic:

Wash/sanitize your hands;

Cough/sneeze into sleeve/tissue;

Mask required if other patients are present in the waiting room; and

If you are sick, please do not enter.

We want you to feel safe, so if you would feel more comfortable with us wearing a mask while you are here, please do let us know 😊

We thank you all for your compliance, your understanding, and your co-operation.
